

THE PASTORAL AREAS

As from May 2009. Updated Mar 2016

The parishes and churches in each Area, and the Area Deans, are given on the back. Boundary lines between Areas are highly approximate and provisional. Names of a couple of non-Church Mass centres are omitted in the list purely for reasons of space.

The colour-coding of the dots, showing the approximate locations of Parish Churches and Mass centres, corresponds to the groupings of the former Deaneries and thus shows where changes have been made. The fainter colours indicate a Mass centre, or a parish which is clustered with another.
